Collegiate Undergraduate Writing/Photography Competition

**Virginia Outdoor Writers Association 2020-21 16th Annual
Collegiate Undergraduate Writing/Photo Competition**

The Virginia Outdoor Writers Association, Inc. (VOWA) along with award sponsors **Dominion Energy**, and **Cooperative Living Magazine**, are proud to once again host a Collegiate Undergraduate Writing/Photo Contest. The objective is to encourage young adults to write about and photograph their outdoor experiences and interests in wildlife or natural history.

The competition is open to any undergraduate student enrolled during the school year 2020-2021 at a Virginia college or university, including two-year community colleges, public, and private post-secondary institutions, or to students who are Virginia residents attending similar out-of-state schools.

The theme for the contest essay is to write about **a memorable outdoor experience or special interest**. Each writer must title his/her essay and be careful not to exceed the allotted word limit of 800 to 1,000 words of his/her best, most carefully edited work.

For the **Best Outdoor Photo** Award, each entrant may submit three of his/her very best outdoor photos in JPEG format with a 50-75-word paragraph identifying and telling us about the photo. Ideally, photographs should be sized to 1028 pixels on the longest side at 96 ppi, as this is the size image that works the best in PowerPoint and shown with a digital projector or monitor. However, if you are unable to do this, a larger image that we can resize is acceptable. Some light sharpening can be used after an image is resized from a larger, fully prepared image. A high-res image must be available if you are chosen as our winner.

Permitted photo editing includes: cropping; re-sizing; rotating the photo; red-eye removal; simple enhancement such as Auto-fix, Quick-fix, Auto-levels, etc.; filters to sharpen, blur, or reduce noise; and corrective functions to improve the natural appearance of the image, such as white balance, brightness, contrast levels, exposure, saturation, and color balance. Not permitted are techniques such as adding, removing, or replacing elements; artistic filters; and added borders or frames.

The file name for each image should have the camera number removed and photographer's name and the image title put in its place. It is best if you copy and

rename your original image so you can retain the camera number on the original image.

If you have any questions about how prepare or rename your picture files, you may contact Marie Majarov at 434-406-3164 or e-mail mariemilannmajarov@gmail.com for help.
